MEDIA TANK SIZE DXH	10" X 54"

- NO Brine Tank
- NO Salt
- NO Drain
- NO Valve/Electricity

BENEFITS

Reduces Hard Water Effects

Prevents scale buildup in pipes, fixtures, and appliances without removing minerals or using salt.

Protects Your Home

Keeps water heaters, dishwashers, and plumbing running efficiently by stopping hard-water scaling before it forms.

Salt-Free & Eco-Friendly

No salt, no brine discharge, and no regeneration cycles—safe for your home and the environment.

Low Maintenance

No bags of salt, no electricity, and no moving parts. Just simple, reliable conditioning.

Keeps Healthy Minerals

Retains beneficial calcium and magnesium while preventing them from sticking to surfaces.

Perfect for City or Well Water

A great alternative for homeowners who want softer-feeling water without the upkeep of a traditional softener.

Affordable & Efficient

Lower maintenance costs and longer appliance life make it a smart whole-home upgrade.
